APPROACHES TO TABLE BAY

DEPTHS IN METRES

SCALE - 1 : 36 000(33°50′S)

PROJECTION-MERCATOR

SPHEROID - WGS 84

Depths are in metres reduced to Chart Datum (LAT).

Heights are in metres above Mean Sea Level.

NAVIGATIONAL AIDS
Certain lights, navigational aids and wrecks have been omitted from this chart. For details of these, the larger scale charts and relevant hydrographic publications should be consulted.

SATELLITE-DERIVED POSITIONS
Positions obtained from satellite navigation systems, referred to the World Geodetic System (WGS-84), can be plotted directly on this chart.

CRAYFISH TRAP FISHING
Mariners should navigate with caution within 3 nautical miles off the coast, on account of the presence of anchored or drifting small fishing vessels and their unlit bottom gear, marker buoys and recovery lines.

REPLENISHMENT AREA
Ships replenishing stores off Table Bay should remain to the westward of the lines running in north-westerly and south-westerly directions from a position bearing 290° and 6 nautical miles from Green Point Light.

SUBMARINE CABLE
Anchoring and trawling is prohibited one nautical mile either side of the submarine cable. See Annual Notice to Mariners No. 23 and South African Sailing Directions Volume I.

VESSEL TRAFFIC SERVICES
For procedures and working details of VTS see South African List of Lights and Radio Signals (SAN HO-1).

Notice to Mariners 2006.118.119 2008.28.69 2009.107 2010.29.61.71 2011.78 2012.97 2013.92 2014.40 2016.65 2020.34 2021.63 2022.42.84.86.

Published at Cape Town, South Africa on 25 Aug 1978 under the Superintendence of Commander J.B. de Wet, Acting Hydrographer, SA Navy.
